# Learner Achievement Verification

This is to certify that the management of Alison has decided to award Spyrosamvra Spyrosamvra living in Greece the certificate of completion in Diploma in DevOps Engineering - Kubernetes, Docker and Google Cloud.

Learner Details

Name: Spyrosamvra Spyrosamvra

E-mail: spyrosamvra@gmail.com

Country: Greece

Course and Result

Diploma in DevOps Engineering - Kubernetes, Docker and Google Cloud

Score
89%

Study Time
0:45:37

This is a project-based course, where the fundamentals, concepts, definitions and terminology used in the Kubernetes, Docker and Google Cloud platforms are provided. In Project One, a publicly accessible WordPress website is created, which is backed by a MySQL database, running inside a Google Container Engine Pod. In Project Two, a multi-tier web application, called a Guestbook, is created, using a Google Container Engine. Students will perform hands-on practical exercises, to help them learn.

Modules Studied

Module 1: Introduction to the Course and Microservices

Module 2: Google Cloud and Docker

Module 3: Virtual Box and Kubernetes

Module 4: Google Cloud Shell

Module 5: Diploma in DevOps Engineering - First Assessment

Module 6: Containers and Images

Module 7: Deploying an App

Module 8: Frontend Development

Module 9: Course Review

Module 10: Diploma in DevOps Engineering - Second Assessment

Module 11: Course assessment
